

# 2022 Spring Donuts & Distributions: Quantitative Research Methods Reading Group

This semester, we are going to focus on three advanced statistical analyses from Plonsky, L. (2015). *Advancing quantitative methods in second language research*. Routledge.

According to the topic of each session, our wonderful SLSers will be invited as peer experts, and they will share their experiences and knowledge they gained via their QRPs and dissertation projects.

## First Session

### **Chapter 8: Mixed Effect Modeling and Longitudinal Data Analysis**

Date: March 4 (Friday)

Time: 10:00–11:00

Meeting ID: 995 7009 9308 (Passcode: 873080) <https://msu.zoom.us/j/99570099308>

## Second Session

### **Chapter 9: Exploratory Factor Analysis and Principal Component Analysis**

Date: March 25 (Friday)

Time: 10:00—11:00

Zoom Meeting ID: 972 1952 5484 (Passcode: 767345) <https://msu.zoom.us/j/97219525484>

## Third Session

### **Chapter 10: Structural Equation Modeling in L2 Research**

Date: April 22 (Thursday)

Time: 10:00—11:00

Zoom Meeting ID: 966 8599 8859 (Passcode: 179230) <https://msu.zoom.us/j/96685998859>
